	Madhu Dandwate	Railway Minister

Q.3 Complete the given concept map 2

Q.4 Explain the following concept / Short Notes(Any One) 2

- Changing economic life
- Rural electrification

Q.5 Answer in brief 3

- What are the challenges facing rural development?

Q.6 Read the passage and answer the questions based on it. 4

- The Constitution of India states that the primary duty of the government is to raise the people's standard of living, to ensure proper nutrition and to improve public health. The Ministry of Health and

Social Welfare at the Centre helps the state governments in this regard. To make primary health services as well as medical care available to rural people, the tribals and the poor was an objective of the Sixth Five Year plan. Efforts were made towards helping people maintain good health by giving recognition to Unani, Homoeopathy, Ayurveda and Naturopathy in addition to Allopathy.

Progress in the medical field has made the life of Indians relatively free of health concerns. In 1962, the first successful open heart surgery was performed under the leadership of Dr. N. Gopinath at Christian Medical College Hospital at Vellore in Tamil Nadu. Hence, it is no longer necessary to go abroad for such treatment.
